alpha

Better Breeding

Confidence

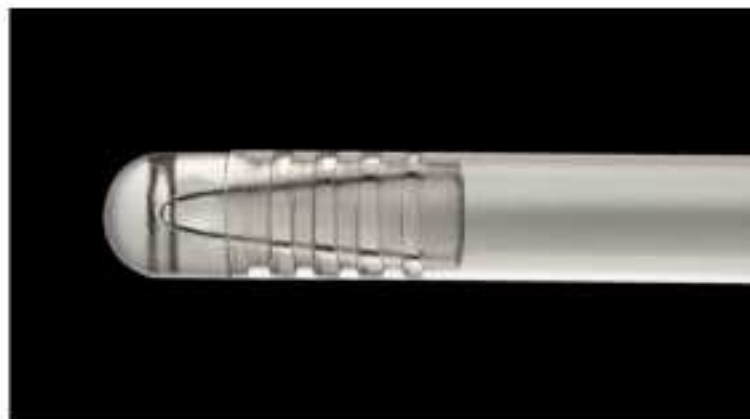

- **Palpable dome head design**, facilitates optimum placement
- **Better straw fit**, no backflow
- **Crystalline plastic**, easy reading of straw print including through the head
- **Dual-lateral delivery**, improves hygiene
- **Transparent head**, makes fluids easy to see upon withdrawal
- **Improved connection**, prevents separation from the gun
- **Flexible and resilient**, assists in placement

Husbandry

- **Polished dome head**, passes smoothly into cervix and through cervical folds
- **Ultra-smooth**, atraumatic

Time Saving

- **Insert integrated in the head**, quick loading
- **Two lateral exit holes**, for reliable and consistent deposit of semen
- **Crystalline plastic**, allows barcode scanning
- **Unsplit**, connects to Kombicolor or spiral gun
- **Universal**, fits mini or medium straws

Optimized for Kombicolor

- **Inseminate 4 cm deeper** than other guns
- **Fast connection and easy removal** of the sheath
- **Quick identification** with 5 different colored rings
- **Universal, mini and medium straws**
- **Non-magnetic, austenitic 304L 18/10 stainless steel** for years of use
- **Easy to clean** for improved hygiene

Ref. 024485

Packaged in bag of 50. Master box of 1500

- ISO 9001:2008 and medical reference ISO 13485:2003 certified
- Production site complies with the strictest standards of quality and safety
- Continuous improvement of product, production and quality control processes
- All materials and finished products (voluntarily) in contact with living cells tested for bio-compatibility
- 95% made in France
